

FIRCO SOFT INTEGRATES LATEST SWIFT STANDARDS

Paris, FRANCE - 20th June 2007

FircoSoft, the leading provider of watch list filtering solutions has anticipated the coming out of new standards and regulations to be able to supply state-of-the-art filtering solutions to its customers. In 2007 and for the 7th consecutive year, FircoSoft has been awarded the Swift-Alliance Plug-In label. This award shows SWIFT recognition of quality for FircoSoft's OFAC-Agent Suite filtering solution using the SWIFTAlliance Developers Toolkit (ADK) for integration in SWIFTAlliance.

With **SwiftNet Phase 2**, **Swift** has launched its new release of Swift Alliance Access, **SAA 6.0**, to which banks must migrate before March 2008. Since September 2006 and in order to be compatible with Swift's new release, FircoSoft has upgraded its OFAC-Agent Suite server and ADK components enabling the filtering solution to be plugged-in on **SAA 6.0** and to filter the new XML formatted payment messages.

FircoSoft's customers equipped with OFAC-Agent Suite have been able to migrate to SAA 6.0 and to continue their fight against money laundering and terrorist financing by filtering their SWIFT transactions on SAA 6.0.

About FircoSoft:

Founded in 1992 FircoSoft offers STP Solutions for payment and securities and watch list filtering solutions for international financial institutions. FircoSoft develops markets and supports OFAC-Agent Suite to eliminate the risk of processing illegal transactions and detect high-risk financial customers. Over 250 institutions worldwide (representing 500 sites) use FircoSoft's Watch List Filtering solutions which are Multi-Alphabet ready.

FircoSoft is a member of the SWORD Group (Euronext FR0004180578 - SWP). For more information, please visit www.fircosoft.com
